A New Leaf

Bring nature in with Joy de Rohan Chabot's newest collection of sculptural chairs that resemble leaf arrangements. The wrought metal chairs are available in five colours. Three are inspired by seasonal changes – spring, summer and fall – and the other two depict the leaves' colours as they appear under sunlight and moonlight.

Hip Dining

Ce La Vi, the latest hotspot in the heart of Lan Kwai Fong, is getting raves for its impressive vista, buzzing atmosphere and modern Asian cuisine. Like its Singaporean sister atop the Marina Bay Sands, it's a place to see and be seen. Its rooftop SkyBar, with a central jacuzzi, offers a 360-degree view of Hong Kong's skyline, while the Club Lounge and restaurant that occupy two levels below charm guests with their tropical rainforest theme.
